

Orton-Gillingham Tutoring

Orton-Gillingham works because it ...

- Instills confidence
- Helps children overcome learning difficulties
- Makes it easier for children to learn to read, spell and do math
- Works for any student lacking the basic level of phonemic awareness
- Combines sight, hearing, touch and movement
- Learn the how and why of reading
- Multisensory Math method, structured, step-by-step, data-driven, and personalized

What Is Orton-Gillingham?

OG is a very prescriptive, powerful, instructional approach that enables students to build confidence through visual, auditory, and kinesthetic lessons. Students of all ages learn critical sound-symbol connections to close the skill gaps in reading and spelling. Orton-Gillingham approach is highly effective for students with dyslexia and other learning disabilities, but it can also be beneficial for all students who need extra support in reading, writing, and spelling.

OG for Math is a multisensory approach to teaching math that emphasizes imagination over rote memorization. It's also structured to teach concepts and skills systematically from simple to complex, with review and reinforcement to help students master the material.

The KEY to SUCCESS

Offers Orton Gillingham tutoring to all students
